

Case Study - Pharmacy Chain

The Client	: The client is part of a well-known group of pharmacies in the UK with a chain of 8 shops
Client Issues	: Bookkeeping done by local book keeper was not up-to-date There were delays in reconciliations and Bookkeeping The group was required to submit monthly MIS packs to bank which were never on time
In Partnership with Global Infosys	: Bookkeeping is now up-to-date All NPA payments are settled on time Monthly VAT returns submitted on time MIS pack is now submitted within 25 days of the month, in timely submission for the bank review
Outsourcing to Global Infosys	: The Management of the group can now focus on expanding the business because the financial information provided is always at their fingertips
